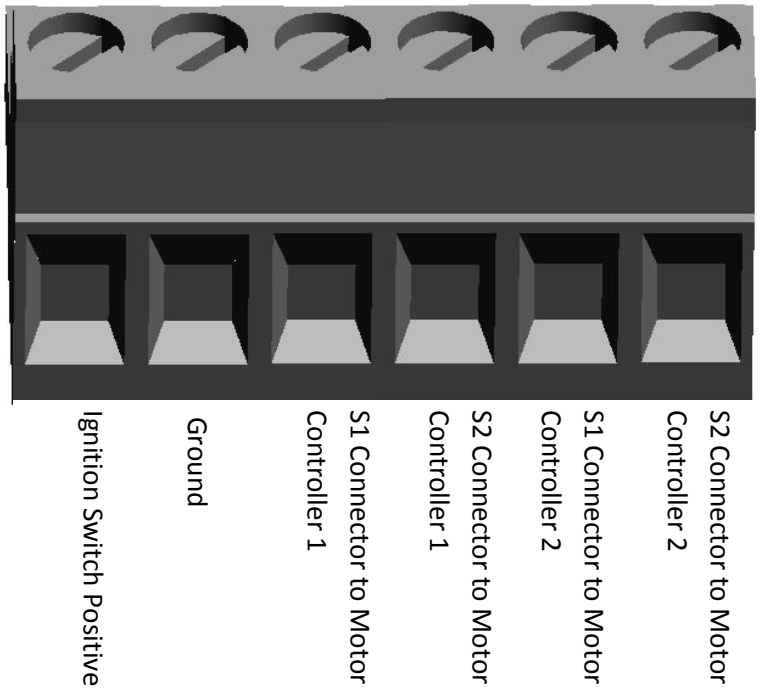
JO1-1 Rev 3 **Dual Joystick Wiring Instructions** **January 30th, 2010**

Wire the Connector



-Use 16 gauge Wire
-Strip approximately ¼" off the ends of each wire
-Insert stripped end into the respective square opening on the terminal block plug
-Use a small flat screwdriver to tighten (clockwise) the screw until wire is secured

Connect Wired Terminal Block to Joystick Terminal Block.

Please Note: The plug only fits one way into the block
