

Sideshift

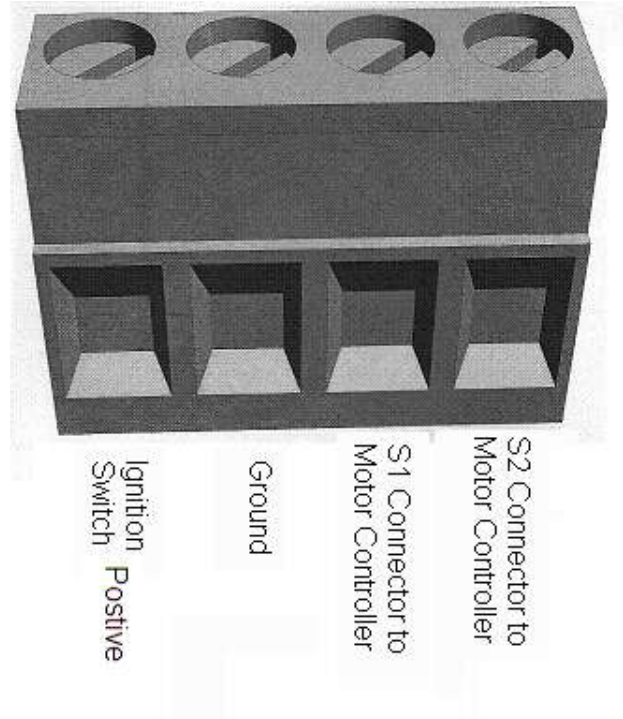

SIMPLE DOCKING FOR EVERY BOAT

JO1-2 Rev 3

Single Joystick Wiring Instructions

Wire the Connector

- Use 16 gauge Wire
- Strip approximately ¼" off the ends of each wire
- Insert stripped end into the respective square opening on the terminal block plug
- Use a small flat screwdriver to tighten (clockwise) the screw until wire is secured

Connect Wired Terminal Block to Joystick Terminal Block.

Please Note: The plug only fits one way into the block.

Do not force the plug into the terminal.
